Live Your BEST Life

Enhancing Health & Wellness

*Through Innovative, Safe and
Accessible Bathing Solutions*

The Ultimate Bathing Experience

Leak-Free Door System

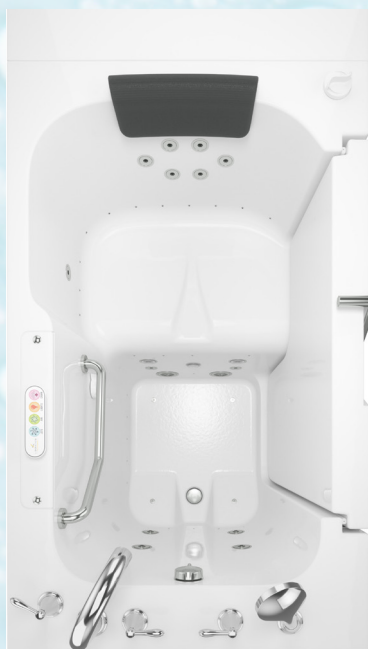

ComfortSeries™ by American Standard offers a Lifetime Guarantee on our leak-free, patented door system seal, so you can enjoy a stress-free spa-like experience at home with each therapeutic bath.

QuickDrain®

With the touch of a button on the Arthritis-Friendly electronic touchpad, your ComfortSeries™ bathtub will drain in less than 2 minutes, thanks to our patented QuickDrain® system - because every moment counts!

RevitaJet® 44 Whole Body Hydrotherapy System

ComfortSeries™ by American Standard features the exclusive **RevitaJet® 44 Hydrotherapy System**, with more hydrotherapy water massage and air jets than most other bathtubs.

The warm, bubbling bath is perfect for promoting improved circulation, and helping to relieve aching joints and muscles.

You can choose between any or all of our targetted RevitaJet® 44 Whole Body Hydrotherapy settings in one bathtub:

- Deluxe Upper Body Massage
- Ultimate Leg Therapy
- Ultra Foot Massage

Safety, Independence, & Comfort

Safety Features

Designed with your safety in mind. A built-in chrome safety grab bar, textured floor surface, 17" chair-height ADA built-in seat, accessible door, and Arthritis-Friendly bath faucet within arms-reach, all help reduce the chance of falling or slipping as you shower or bathe.

An Ozone Sanitary System is included to ensure bacteria-free bathing.

Accessible Outward-Opening Doors Available

A fully accessible slide-in / slide-out transfer seat makes it easy to access from both a standing position and/or from a mobility walker. The bathtub is also accessible by wheelchair users, and by using any type of patient lift system.

Stainless Steel Frame

Our premium quality accessible and walk-in bathtubs have a sturdy stainless-steel frame designed to support years of therapeutic bathing in your home. Our bathtubs are manufactured in our American Standard-Grand Prairie, Texas walk-in bathtub manufacturing facility.

Chromatherapy

Chromatherapy has been shown to positively impact a person's sense of well-being. This system uses LED light colours under the water surface that illuminates your bathtub in 7 different richly coloured tones.

Aromatherapy

Aromatherapy is used to treat a variety of conditions. In general, it seems to relieve pain, improve mood, and promote a sense of relaxation. Our bathtubs include an aromatherapy chamber to allow warmed essential oil infused beads to add to your relaxation therapy.

American Standard Fast-Fill Bath Filler and Personal Shower

ComfortSeries™ accessible and walk-in bathtubs feature a premium American Standard fast-filling faucet with ceramic disc valves, and lever handles in a Polished Chrome finish.

Its stylish multi-spray function handshower can be used while seated, or placed in the safety slide bar as a showerhead.

The ComfortSeries™ Difference

For more than 150 years, American Standard has created innovations that have set, and reset the standard for healthy living, living beautifully, and living responsibly; at home, at work, and around the world. Driven by a passion to improve lives, American Standard has become a leader in bathroom and kitchen solutions.

From homeowners like you, to health care professionals, and designers & renovators; the American Standard name has become synonymous with exceptional value, quality and reliability. As part of the American Standard family of companies, we at American Standard Walk-in Tubs Canada, stand behind our products and our work; which includes complete in-home installations by our certified installation partner, The Walkin Tub Company Inc.

We want to improve your home's safety & accessibility, and we genuinely want you to love your bathroom.

The Dangers in Your Bathroom

- Every 2.3 seconds, a person 65 or older will suffer a fall.
- 1 in 3 adults 65+ will fall this year.
- 70% of all home accidents occur in the bathroom.
- Stepping into a conventional shower or bathtub can be difficult (or impossible) for aging adults or those with limited mobility.
- Grab bars and non-slip mats can help, but only address some stability issues.

ComfortSeries™ bathtubs are sold exclusively in Canada directly to consumers ONLY through American Standard Walk-in Tubs-Canada **1-844-867-7737**. Installations are completed by our certified installation partner The Walkin Tub Company Inc.

The Walkin Tub Company Inc. is certified with The National Association of Home Builders and with Age Safe Canada: as Certified Aging in Place Specialists & Certified Senior Safety Specialists.

Installation-Ready bathtubs are also an option available to renovators.
