BENEFITS of a COMFORT⁺SERIESTM ACCESSIBLE WALK-IN BATHTUB

SAFETY ★ INDEPENDENCE ★ COMFORT ★ WELLNESS

- ✚ Outward-opening for full access
- ✚ Built-in Transfer Seat
- ✚ Walker & Wheelchair Accessible
- ✚ Use for bathing & showering
- ✚ Prevent falls in & out of bathtub
- ✚ Patient Lift Accessible

American Standard ComfortSeriesTM accessible tubs feature the RevitaJet[®] Hydrotherapy System, used often to treat arthritis, lower back pain, insomnia, diabetes, and assist in stroke recovery. Hydrotherapy is proven to ease aches & pains, alleviate stress & tension on joints, and improve circulation & blood flow for improved cardiovascular health.

Therapeutic advancements will help to provide relief from:

- ✓ Arthritis
- ✓ Circulatory Disease
- ✓ Diabetes
- ✓ Fibromyalgia
- ✓ Headaches
- ✓ Insomnia
- ✓ Joint Pain
- ✓ Lower Back Pain
- ✓ Muscle Stiffness
- ✓ Rheumatism
- ✓ Sciatica
- ✓ Stress
- ✓ Knee Pain
- ✓ Injury Recovery
- ✓ Joint Compression

AmericanStandardWalkInTub2U.com

American Standard
Walk-In Tubs

COMFORT[™]SERIES

Exclusive, innovative power drain, drains water in less than 2 minutes. Fast draining. No waiting.

CHROMATHERAPY

7 LED light options to help boost relaxation and reduce tension, for a positive effect on health and mental well-being.

BUILT-IN SAFETY GRAB BAR

Sturdy, secure and within reach for added safety and peace of mind.

TEXTURED FLOOR

Reduces the chances of slipping, and adds security.

EASY TOUCH PAD CONTROLS

Easy-touch panel allows you to control all the electronic features of the tub. Ease of Use Commendation.

CHAIR-HEIGHT BUILT-IN SEAT

17" chair-height and contoured design makes sitting and standing easy and comfortable. Outward-opening doors allow for full, slide-in accessibility.

NECK PILLOW

For extra luxury relaxation.

EXTENSION KIT INCLUDED

Allows for a perfect fit into a space up to 60"

DEEPER SOAK

Nearly twice the depth of standard bathtubs so you can enjoy a full body, warm, soothing soak.

45° ANGLED FOOT-WEELS

Designed for better relaxation and comfort, with foot jets.

American Standard FAST-FILL BATH FILLER, HANDSHOWER & 24" SAFETY SLIDEBAR INCLUDED

For the ease of showering as well as bathing.

Provides a completely flat surface for a watertight seal. Maintains strength with moisture changes in bathroom.

Non-corrosive aluminum construction. Arthritis-friendly, ergonomic handle for easy, minimal effort use.

Available in 4 sizes: inward and outward-opening doors.

AROMATHERAPY

Trigger positive emotional well-being, and stimulate senses with the power of scent.

44 Whole-Body whirlpool and air massage jets, featuring advanced back, wrist/hand, and leg targeted therapy, with unique legs-only deep-tissue massage.

INLINE HEATER

Maintains water temperature throughout bathing session.

OZONE SELF-CLEAN SANITATION SYSTEM

Ozone is the most effective cleaning system. Ozone automatically oxidizes and eliminates disease-causing microorganisms in the bathtub, and ozone bubbles results in pure oxygenated water.

Hydrotherapy therapeutic advancements have been proven (through clinical trials and research) to assist and provide pain and general relief for the following disabilities and impairments:

- Immobility & Paraplegia K, R, S
- Stroke & Paralysis C, D, G, K, L, M, P, S, Q, V
- Arthritis A, R
- Rheumatoid Arthritis A, R
- Inflammation A, D, R
- Circulatory Disease A, D, Q, V
- Diabetes E, G, H, I, J, M, T, V
- Fibromyalgia A, R
- Joint Compression & Pain A, N, R
- Sciatica Pain F, N, O, R
- Knee Pain, Hip Pain from injury and/or replacement A, N, R
- Back Pain from injury F, N, R
- Joint Stiffness A, D, N, R
- Muscle Pain A, R
- Insomnia A, U
- Anxiety & Stress A, U

HOW HYDROTHERAPY HELPS

Hydrotherapy uses water to deliver temperature and pressure changes to the body. These physical changes in blood vessels cause changes in the rate of blood flow and in the metabolic functions that are linked to the rate of blood flow.

Immobility & Paraplegia K, R, S

With most of the body submerged, the natural buoyancy and submersion in water decreases the body weight of an individual by up to 90%. As in mobile users, blood circulation must be maintained to avoid loss of limb. With ComfortSeries™ RevitaJet® HydroTherapy System, 44 water and air jets focus on increasing circulation to feet and ankles, legs, hips, back and arms.

Stroke Survivors C, D, G, K, L, M, P, Q, S, V

With most of the body submerged, the natural buoyancy and submersion in water decreases the body weight of an individual by up to 90%. This makes it easier for stroke patients to move without placing stress on their joints. Patients are able to work on simple range-of-motion exercises and stretching in the water. Due to muscle spasticity in stroke patients, hydrotherapy can help to relax these painful muscles by using the pressure provided by water & air jets to effectively massage the muscles, reducing pain during and after a session, and increase blood flow and circulation. Warm water helps reduce tension in the body while also stimulating the release of endorphins, the body's natural pain-killers; possibly eliminating the need for many prescription painkillers. This also helps their emotional well-being by gaining a sense of progress and independence, and their recovery as a whole.

Arthritis Sufferers A, R

Hydrotherapy is one of the safest treatments for arthritis, back and joint pain. For those with any type of Arthritis (osteo, joint, rheumatoid, spondylitis, psoriatic), keeping active or exercising may be difficult, and the only alternative is taking medication or hydrotherapy. Stretching in warm/hot water increases blood flow/circulation, and decreases inflammation. With up to 90% buoyancy levels, the water assists in reducing pressure on joints in a patient's spine, hips, knees, and ankles; the massaging jets increasing blood flow through supportive muscles. Additionally, the pain that is relieved helps improve emotional/mental wellness.

Back and Sciatica Pain F, N, O, R

Even though back pain is common, it can be debilitating for some. Hydrotherapy helps to massage strained muscles & ligaments, but also circulates blood flow to increase healing to those strained areas. This is most common in aging adults as joints, discs & ligaments age as well. The pain relief results of hydrotherapy can also give sufferers the confidence to continue with strengthening exercises and regaining a more active life after hydrotherapy sessions.

Diabetes E, G, H, I, J, M, T, V

Hydrotherapy helps reduce many of the effects of diabetes, including reducing blood sugar, blood pressure, and body weight due to buoyancy, while promoting blood circulation and decreasing inflammation. This results in less glucose in the blood, where patients are shown to have an easier time controlling their plasma sugar levels when continuing with a hydrotherapy regimen.

Hip and Knee Replacement Surgery Recovery A, N, R

The hydrostatic pressure of the water has positive effects on reducing the swelling in knees & hips after surgery, as well as the buoyancy relief. Warm water relaxes the muscles and allows the sympathetic nervous system to be suppressed, allowing pain relief. Hydrotherapy increases blood flow to inflamed surgical areas which promotes healing and reduced scar tissue.

Inflammation, Blood Circulation, Muscle & Joint Pain A, D, M, N, Q, R

With the flow of heated water, blood vessels expand increasing blood circulation. With increased blood flow, it assists in easing the pain in a bather's joints, allowing muscles to relax, and encouraging movement to improve muscle strength. Weightlessness in the heated water can alleviate and diminish joint pressure and swelling, and alleviate muscle pain, since they don't have to work as hard to keep the body in position. Heated water massage from water jets activates nerves in the skin and muscles that increase blood circulation to the massage area. This results in better tissue oxygenation, toxin evacuation, and muscle relaxation. Increased blood flow and circulation also helps injuries heal faster.

Anxiety and Emotional Well-Being A, U

Quality of life (QoL) encompasses the physical, psychological, social and spiritual dimensions of life lived by a person. Cancer pain is one of the physical components which has a tremendous impact on the QoL of the patient. While treating cancer by modern medicine focuses more on the quantity of life lived, factors like pain, stress, anxiety, fatigue, fear of death, and depression are often overlooked. Whether faced with severe pain in terminal cancer or ongoing nausea and vomiting caused by chemotherapy/radiation, and surgery related pain; cancer patients endure a long road of physical trials. The QoL lived also matters equally, and the psychological status is a main dimension of quality of life. Warm water relaxes the muscles and allows the sympathetic nervous system to be suppressed, allowing pain relief. ComfortSeries™ RevitaJet® Hydrotherapy System increases blood flow to inflamed surgical areas and areas treated by chemotherapy and radiation, which promotes healing, reduces scar tissue, and expels toxins, improving the immune response. The ozone system within ComfortSeries™ accessible tubs allows for chlorine-free hydrotherapy bathing.

QUICK DRAIN®

QUICK DRAIN®

FAST DRAINING, NO WAITING

Our patented QuickDrain® allows you to exit your walk-in bathtub when you're ready, eliminating the wait time for water to drain before you can open the tub door and step out. Simply activate the QuickDrain® fast water removal system when you've finished and the water is rapidly pumped from the tub in just a few minutes.

8X FASTER

The QuickDrain® drains water from your tub 8 times faster than conventional systems. This patented system is equipped with a pump, safety suction and on/off electronic control that allows you to activate the drain with the touch of a button. And since this system ties into the manual drain assembly, with electrical plug directly into the wall outlet (in the same way as the whirlpool pump), no additional plumbing is required.

COMFORT⁺SERIES™

• BATH/SHOWER OPTIONS •

Experience the COMFORT⁺SERIES™ DIFFERENCE

In our aging society, bathrooms present serious challenges for those with mobility and accessibility issues, and those that wish to plan and protect their investment of Aging in Place. Installation by 	Lifetime

WARRANTY LIMITATIONS

Safety Tubs® Company LLC warrants to the original consumer purchaser that this product and any of its parts will be free of manufacturing defects and that the installation of this product will be free of workmanship defects under normal residential use and maintenance as long as the home where the product is installed is owned by the original consumer purchaser, subject to the other terms and conditions contained in this document.

The warranty for commercial installations is three (3) years.

To submit a claim, a copy of this document and a copy of the original sales contract must be submitted in writing by mail to Safety Tubs with a brief explanation of the claim. If after inspection, Safety Tubs determines that a valid claim exists, Safety Tubs will repair, re-install, replace, or refund the purchase price of the failing product or service, at Safety Tubs' option. If Safety Tubs determines to replace any or all product(s), and if such product(s), as originally installed, is no longer available, Safety Tubs shall have the right to substitute product(s) designated by Safety Tubs to be of equal quality.

This warranty is granted by Safety Tubs and only materials purchased from and installed by Safety Tubs are covered by this warranty. All warranties assume normal and reasonable use of products or components. These warranties do not cover damage caused by occurrences beyond the control of Safety Tubs such as: settlement of the building, failure of the structure (including foundations and walls), use of incompatible accessories, removal, repair, or re-installation of any products or components by other than Safety Tubs, which will also void this warranty, intentional acts, unreasonable use or failure to provide reasonable maintenance as and when necessary, or damages due to or arising from the identification, detection, abatement, encapsulation or removal of mold, asbestos, lead-based products, or hazardous substances inside or outside of the structure being improved.

This warranty is the only express warranty provided by Safety Tubs. IN NO EVENT SHALL THE DURATION OF ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE BE LONGER THAN THE DURATION OF OWNERSHIP AND OCCUPATION BY THE ORIGINAL OWNER OF THE HOME ON WHICH THE PRODUCT IS INSTALLED. SOME PROVINCES DO NOT PERMIT ANY LIMITATION ON THE LENGTH OF AN IMPLIED WARRANTY, AND THEREFORE THE IMMEDIATELY PRECEDING SENTENCE MAY NOT APPLY. SAFETY TUBS' LIABILITY TO OWNER UNDER THIS WARRANTY IS LIMITED TO THE AMOUNTS RECEIVED BY SAFETY TUBS FOR SERVICES RENDERED UNDER THE ORIGINAL SALES CONTRACT. IN NO EVENT SHALL SAFETY TUBS BE OBLIGATED OR LIABLE FOR INCIDENTAL, SPECIAL, INDIRECT, OR CONSEQUENTIAL DAMAGES OF ANY KIND FOR THE BREACH OF ANY EXPRESS OR IMPLIED WARRANTY OF SAFETY TUBS SERVICES. SOME PROVINCES DO NOT ALLOW EXCLUSION OR LIMITATION OF INCIDENTAL OR CONSEQUENTIAL DAMAGES, AND THEREFORE SOME OR ALL OF THE IMMEDIATELY PRECEDING SENTENCE MAY NOT APPLY. THESE WARRANTIES PROVIDE SPECIFIC LEGAL RIGHTS, AND YOU MAY HAVE OTHER RIGHTS, WHICH VARY FROM PROVINCE TO PROVINCE.
